

Developmental Medicine and Child Neurology

Volume 8 1966

INDEX

Authors and subjects of articles in the body of the Journal are indexed together. Abstracts are included in the general index and listed under both subjects and authors, with '(abstr.)' at the end of the title. Letters to the Editor are indicated by the symbol (L).

ABERCROMBIE, M. L. J., and TYSON, M. C.: Body image and Draw-a-Man test in cerebral palsy, 9
Abnormalities. *See* Malformations
Abortion, relation to chromosome anomalies, 67
Acne in adolescent boys, 623
Adiposity, intellectual efficiency of adipose children (abstr.), 500
Adolescence, biological development in, 621
— chronic diseases in, 625
— deviant development in, as late sequelae of brain damage, 626
— early and late maturation at, characteristics of, 622
— hyperkinetic syndrome in, 626
— peptic ulcer disease in, 627
— tertiary maturation characteristics of adolescent boys, 623
Adrenal glands, cortical atrophy, diffuse cerebral sclerosis associated with, 719
— — hyperplasia, congenital, growth in (abstr.), 798
— — — — simple virilising form, retardation of skeletal maturation and linear growth in treatment (abstr.), 124
Adults, cerebral palsied, reading problems in, 417
— young, cerebral palsied, relation of childhood characteristics to outcome in, 645
AJJAN, N. *See* LAMY, M., 373
American Academy for Cerebral Palsy, annual meeting, Cleveland, Ohio, 1965; abstracts of papers presented at, 96
Amino-acid, free content of infant monkey brain, effect of prolonged phenylalanine loading on, 724
— free, in cerebrospinal fluid, relation to cerebral atrophy, 617

Amniotic fluid volumes, 587
Anaemia, megaloblastic, associated with dietary deficiency and primidone therapy in child with cerebral palsy, 673
ANDERSON, H.: Craniosynostosis as a complication after operation for hydrocephalus (abstr.), 495
Aneurysm, aortic dissecting, in Marfan's syndrome (abstr.), 244
— cerebral arterial, in infancy, association with agenesis of corpus callosum (abstr.), 117
Anhidrosis, congenital familial sensory neuropathy associated with (abstr.), 243
Animals, diseases, communicable to man, report of symposium on, 619

ANNOTATIONS

Bobble-head doll syndrome, 777
Brain tumours in infancy and childhood, 465
Cerebral palsy, physiological classification, 337
— — value of animal experiments in, 336
— — very early treatment, 206, 353 (L)
Cerebrospinal fluid pressure in infants, measurement without puncture, 207
Chiari's cerebellar malformations associated with spinal cord anomalies, 84
Chromosomes, abnormalities, epidemiology, 774
Cleft lip and palate, genetics of, 463
Clothing for the handicapped, 351
Community developmental centres, 770
Craniosynostosis, 212
Deprivation, early, and enrichment, 603
Down's syndrome, new work on, 468
Ear, external, abnormally shaped, 210
Electroencephalogram in cerebral palsy, 216
Electroencephalography in neonatal ward, 82
